

The Condensed Matter Theory group at the Department of Physics and Astronomy, University of Utah, Salt Lake City invites applications for one or more postdoctoral positions. The successful candidates will work with Prof. Dmytro Pesin on many-body and mesoscopic physics in topological phases of matter, and will have an opportunity to interact with other theoretical physics faculty in the Department. The appointment is expected to start in the Fall of 2014, and is extendable for up to three years. Interested candidates should submit all materials, including three reference letters, a CV, and a brief research statement online to Prof. Dmytro Pesin at pesin@physics.utah.edu.

The University of Utah is an Equal Opportunity/Affirmative Action employer and educator. Minorities, women, and persons with disabilities are strongly encouraged to apply. Veterans preference. Reasonable accommodations provided. For additional information: <http://www.regulations.utah.edu/humanResources/5-106.html>. The University of Utah values candidates who have experience working in settings with students from diverse backgrounds, and possess a strong commitment to improving access to higher education for historically underrepresented students.
